

NYLON : TUBES AND COILS

MEGAFLEX NYLON RANGE is manufactured to tight tolerances, with good dimensional stability.

Key features of MEGAFLEX nylon are:

- Wide temperature range from -40°C to 110°C
- Good chemical resistance
- Flexibility with small bending radius
- Resistance to impact and flexural fatigue
- Low moisture absorption rate of <1,1%

MEGAFLEX N1112

DIN 73378

BRAKE TUBE
• Standard length: 30 m.

Metric	Outside Diameter (mm)	4	6	8	10	11	12	13	15	16	22
N1112	Wall Thickness (mm)	1,0	1,0	1,0	1,0	1,5	1,5	1,5	1,5	2,0	1,3
	Burst Pressure at 20°C (kPa)	10 000	10 000	7 000	6 000	8 000	7 000	6 000	5 600	6 000	4 000

MEGAFLEX N411

DIN 74323

AUTO COIL
• Hose attachment to airbrakes of articulated vehicles.
• DIN specifications.
• Available with BSP or bayonet type fittings.
• Working length: 5 m.

Dimensions (mm)		Pressure (kPa)	
Inside Diameter	Outside Diameter	Working	Burst
8,8	12	1 400	7 700

MEGAFLEX N512

SABS 1194/2000

AUTO COIL
• Hose attachment to airbrakes of articulated vehicles.
• SABS specification.
• Available with BSP or buoyant type fittings.
• Working length: 5 m.

Dimensions (mm)		Pressure (kPa)	
Inside Diameter	Outside Diameter	Working	Burst
8,8	12,7 (1/2")	1 400	7 700

MEGAFLEX N9115/7

AUTO ELECTRIC CABLES
• Electric jumper cables for rear lights of articulated vehicles.
• Auto wire carries SABS mark.
• Working length: 5 m.
• 5 and 7 core.
